intelligence will sender any profession defunct is just that,an assumption and a false one. The only purpose this assumption serves is creating mass panic and hostility towards embracing technology that is meant to make our lives easier.

Introducing AI to this profession will primarily be for the purpose of automating mundane, tedious tasks that require negligible human intelligence. The kind of artificial intelligence that is employed by industries in the current scene, when extended to the law will enable quicker services at a lower price. AI is meant to automate a number of tasks that take up precious working hours lawyers could be devoted to tasks that require discerning, empathy and trust - qualities that cannot be

replicated by even the most sophisticated form of AI. The legal profession is one of the oldest professions in the world. Thriving over 1000 years, trust, judgement and dilligence are the pillars of this profession. While AI can be useful in scanning and organizing documents pertaining to a case. It cannot perform higher - level tasks such as sharp decision making, relationship - building with valuable clients and writing legal briefs, advising clients and appearing in court. These are over and above the realm of computerization.

(i) Write a summary of the passage.

(ii) On the basis of your understanding of the above passage, make notes on it using headings and subheadings. Also supply an appropriate title to it.
