Total No. of Questions : 8] [Total No. of Printed Pages : 4

Paper Code : 21320
F-420
B.C.A. (Fourth Semester)
Examination, 2025
(New Course)
Paper No.: BCA-N-405
System Analysis and Design

Time : Three Hours] *[Maximum Marks : 70*

Note : Attempt any five questions. All questions carry equal marks.

1. (a) What is manual system, how it differs from an automated system? 7

https://www.mjpruonline.com

(b) Describe realtime system and distributed system? 7

2. (a) What are different responsibilities of system analyst, explain? 7

(b) What do you man by system environment and boundaries? 7

3. (a) What is system development life cycle. How does it relate to system analysis? 7

(b) What are different types of systems documentation, also write their importance? 7

4. (a) List various approaches of requirement or facts gathering? 6

https://www.mjpruonline.com

(b) What considerations are involved in feasibility analysis? 4

(c) What is prototyping? 4

5. (a) What do you mean by leveling in DFD? 3

(b) Draw ER diagram for student management system? 7

(c) Discuss technique for cost benefit and analysis. 4

6. (a) What is module coupling and cohesion? 7

(b) What is software system audit, how it differs from system modification? 7

7. (a) Define the term quality assurance. Discuss its importance in system design? 7

(b) What are different types of threats to computer system? 7

https://www.mjpruonline.com

8. Write short notes (any four): 3.5×4=14

(i) Disaster recovery and contingency planning.

(ii) Input/output forms design

(iii) Testing and validation

(iv) User interface design.

(v) System selection plan

(vi) System acceptance criteria
