B.C.A. (Fifth Semester) Examination, 2023-24

(New Course)

Paper - BCA-501-N

Computer Graphics And Animation

Time : Three Hours] *[Maximum Marks : 70*

Note : Attempt any **five** questions. All questions carry equal marks. Symbols used have their usual meanings.

1. (a) What do you mean by computer graphics? Explain its role in education.

   (b) Explain various types of video file formats.

2. (a) Describe color display technique.

   (b) How number of pixels in any image effects its quality? Justify clearly.

3. (a) What is the concept of anti aliasing?

   (b) Differentiate 2-D viewing concept from 3-D viewing concepts.

4. (a) How to draw a line? Explain any one algorithm.

   (b) Draw and explain the concept of display technology (any one of your choice).

5 (a) What are spline curves? Explain its concept in detail.

   (b) Illustrate the procedure of polygon filling.

6. (a) How to create any animation? Write down the steps.

(b) How you seen the practical application of "Morphing" principle. Describe its working in detail.

7. (a) How impact and non-impact printers differ? Explain.

(b) Differentiate between window port and view port.

8. (a) Write down the steps involved in 3D transformation?

OR

Define active and passive transformation.

(b) Distinguish between convex and concave polygons.

OR

Write down the applications of Animation.
